- SUMMARY:**
- Studying Computer Science at the University of Massachusetts Amherst
 - Interested in Data Science and Web Development

EDUCATION: **Bachelor of Science in Computer Science**
Expected Graduation May 2021
University of Massachusetts, Amherst, MA

Relevant Coursework:

- Artificial Intelligence
- Natural Language Processing
- Data Management
- Web Programming
- Mathematical Statistics with Applications

- TECHNICAL SKILLS:**
- **Languages:** Python, Java, C, C++, JavaScript, HTML, CSS
 - **Database:** PostgreSQL, MongoDB
 - **Operating Systems:** Windows, Linux, UNIX

- WORK EXPERIENCE:**
- **Freelance (2019-Present)**
 - Building websites for local businesses
 - Web scraping to gather information on potential leads

- PROJECTS:**
- **Natural Language Processing**
 - Sentiment analysis of financial tweets to try to predict changes in stock price
 - Topic classification for posts on reddit
 - **Investment Tools**
 - Automated trading strategies
 - Using ML algorithms such as linear regression to try and predict price movement
 - Desktop/Web applications for custom orders types and improved order control
 - Web based automated portfolio tracker using Javascript(Node.js), HTML/CSS, and PostgreSQL
 - **Systems Programming in C and C++**
 - Multi-threaded applications
 - Embedded systems (self-balancing robot, motion control)
 - Programming in a Linux virtual environment
 - Operating system components such as shell and cpu scheduler.
